

Association of Ukrainians in South Australia Inc  
Українська Громада Південної Австралії

The famine was brought about in 1932 and 1933 because of Stalin's collectivisation programme. Land was forcibly taken and its produce sold overseas.

7 million Ukrainians perished through a subsequent artificial famine. Ukrainians today label this famine a genocide.

Seven years ago a Presidential Decree set aside the last Saturday in November as a day of Remembrance of this tragedy.
