

# DEAR PUB OWNER!

Surely you have heard of the heinous Russian attack on Ukraine.

These appalling events seem far away and hardly affect your day-to-day life.

But this time it is different. It is not just democracy in a distant country, that is at risk. It's not just lives of people you've never met.

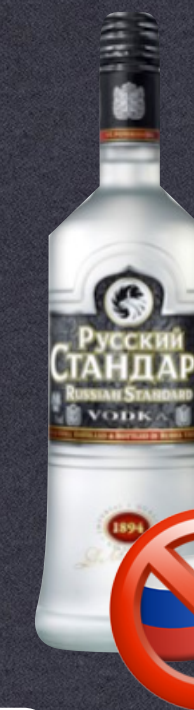

Russia has not shied away from attacking and damaging nuclear reactors and oil refineries. Putin threatened the world to use the Russian nuclear arsenal.

While Russia is far away, there is one small but important contribution you can make to help stop this insane war and discourage future wars.
